

Promise and Law on their minds

For each member in guiding, their concept and thoughts on the Guide Promise are perceived differently. However, for every Guide the Promise is on their mind.

By making a collection of promise profiles you can acknowledge the different thoughts of members.

By building a collection of profiles of unit members you could bring together the collective thoughts of the unit or group.

Take a profile 'mug shot' of member/s and print a copy.

Cut out the head/profile, take either the head or surrounding border to trace around and use as a template.

Make a word cloud with words from the GGA Promise and Law, you might like to add other words that build the Promise for you (eg Spirituality, faith, ethics, empathy and so on) and print. Trace around your template and cut out to make your 'word profile'.

Alternatively, you may like to cut out words from the printed word cloud and glue onto the profile. Any overlapping words may be cut to keep the profile outline.

Glue profile onto A4 coloured cardboard, it is your choice as to whether you place this onto another larger sheet to act as a mount for your picture.
