

Coded Communications

JOTA-JOTI is all about communication. At times messages need to be passed between parties who are separated by a large distance, cannot hear each other or do not have vision and often the information needs to be kept secret. Numerous codes and methods of transmission have been invented and used over the years.

Here are some communication challenges to try:

- Practise using Auslan
- Send Morse code with a torch or buzzer
- Spell out some words in Phonetics
- Pass messages with semaphore
- Learn to say Hello in different languages
- Write a letter to a friend
- Try some calligraphy
- Construct a Tin-Can Telephone
- Talk on a hand-held radio
- Make Braille messages with bumps in Alfoil
- Signal using Marine Flags
- Create your own Alphabet code
- Find out about ASCII code
- Design a QR code
