

Creating a Resource for Girl Guiding in Australia

Girl Guides Australia have produced a how-to-guide to support all those in Guiding who create resources to support the delivery of Girl Guiding.

These resources may include badges, challenge activities, training materials, etc. The how-to-guide aims to simplify the process by clearly mapping out a national approach to Girl Guide resource development.

The how-to-guide provides ideas for where to begin, what to consider, what to include, tips and tricks, and how to proceed.

The document is attached for information and can be found on the GGA website: [Program Resources - Girl Guides Australia](#)

Please share this information with members.
