

AGINFO 16 (2026)
2026 National Science Week Update– CSIRO Robot Responders
Save the Date: 15–23rd August 2026

This update is intended as a placeholder to assist Leaders with planning their Term 3 activities.

This National Science Week (15–23 August 2026) invites Guides to discover the exciting world of robotics. We will explore how robots move, sense and interact with their environment, solve problems and work alongside humans to complete tasks that are too dangerous, complex or challenging for people to do alone. For more information see this link. [CSIRO Robot Responders – National Science Week](#)

Girl Guides Australia and CSIRO are currently developing an Activity Pack specifically for Guides for this National Science Week.

A further update will be provided at the end of July, including details on the Activity Pack, registration process, and badge requirements.

For any questions, please contact **Cassie Talbot GGA National Youth Coordinator** youth@girlguides.org.au
